

MODEL: CCV-084B16-SMT | DESCRIPTION: MAGNETIC BUZZER TRANSDUCER

FEATURES

- surface mount
- side sound port
- externally driven

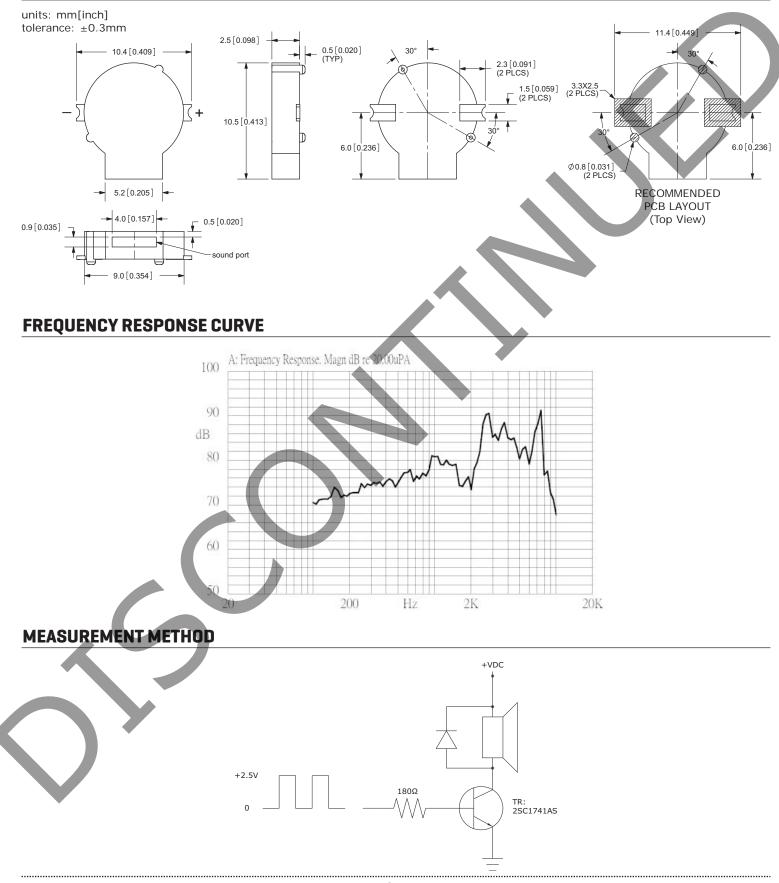

SPECIFICATIONS

conditions/description	min	typ	max	units
		3.6		Vo-p
	2.5		4.5	Vo-p
at rated voltage, 2,730 Hz square wave, 1/2 duty			110	mA

REVISION HISTORY

rev.	description	date	
1.0	initial release	03/01/2008	
1.01	updated part number, added TR package option, applied new spec template	05/02/2013	
	The revision history provided is for informational purposes only and is believed to be acc	curate.

CUI offers a one (1) year limited warranty. Complete warranty information is listed on our website.

CUI reserves the right to make changes to the product at any time without notice. Information provided by CUI is believed to be accurate and reliable. However, no responsibility is assumed by CUI for its use, nor for any infringements of patents or other rights of third parties which may result from its use.

CUI products are not authorized or warranted for use as critical components in equipment that requires an extremely high level of reliability. A critical component is any component of a life support device or system whose failure to perform can be reasonably expected to cause the failure of the life support device or system, or to affect its safety or effectiveness.
